

5 Great Reasons to Support HFA

Help others! HFA's free [Ask an Expert](#) service helps thousands of people navigate the confusing world of hospice care & grief each year. Helping others also helps your mental health, studies show.

Celebrate HFA's legacy! HFA's advocacy has been going strong for **40 incredible years!** Help us continue to promote and improve the compassionate care of hospice.

Give to a group that puts your money to work! **Ninety-four cents of every dollar** you donate goes directly to HFA programs. Our staff of nine is called *The Little Engine that Could* for a good reason.

Support innovation! HFA is part of a national research team studying advance care planning in underserved communities across the U.S.; is helping an Emmy-nominated physician & filmmaker raise awareness of family caregiver burden; and recently launched www.AutismandGrief.org to enhance the grief experience of adults with autism.

Improve care quality! Highly regarded and affordable HFA professional educational programming simply makes care better. And our award-winning *Living with Grief*[®] program is over 30 years old. That's staying power.

Give to an organization that cares. Give to HFA!

Hospice Foundation of America is a 501(c)(3) organization, so your gift is tax deductible.
