

PASSED AND PRESENT NEW TECHNIQUES TO HELP GRIEVERS KEEP MEMORIES ALIVE

DESCRIPTION:

Many grieverers understand the concept of continuing bonds to help with their grieving process, but they may not have the tools to put the concept into practice. Grief professionals recognize that individuals who honor family and friends who have died, and who proactively keep them present in their lives, almost always fare better emotionally than those who don't. This webinar will provide innovative ways to help individuals remember and celebrate their loved ones who have died.

PROGRAM DETAILS:

This presentation features an experienced professional offering her own expertise on the topic. On the screen, you will see the slide presentation and will be able to hear the expert talking and presenting. If you login for the live version of the program, you'll also have the opportunity to email or text the expert questions that she will discuss and answer during the program's Q & A session.
