

MANAGING CHALLENGING HOSPICE DILEMMAS

DESCRIPTION:

Using a case study approach, this webinar course addresses frequent but difficult medical and ethical situations that every hospice professional encounters. Cases studies and best practice presentations include:

- Providing hospice care to patients with mental health conditions.
- Use and discontinuation of artificial nutrition and hydration in hospice, including communication with families and patients.
- Effective pain relief at the end of life using non-opioids, including use of non-opioids for patients with substance abuse disorder.

PROGRAM DETAILS:

This presentation features experienced professionals offering their own expertise on the topic. On the screen, you will see the slide presentation and will be able to hear the experts talking and presenting. If you login for the live version of the program, you'll also have the opportunity to email or text the experts' questions that they will discuss and answer during the program's Q & A session.
