

LIVING WITH GRIEF: IMPROVING DYING

DESCRIPTION:

HFA's 2025 *Living with Grief*® program highlights interventive, creative, and adjunct evidence-based strategies used to assist dying patients and their intimate networks find meaning, value, and comfort. End-of-life care providers from across the country will share insights into programs such as pet therapy, art and music therapy, and the use of virtual reality, which improve the dying experience, offering patients and their networks enhanced quality care, an improved perception of care, and the amelioration of grief. Hospice providers, in turn, may benefit from satisfied clients, recognition in their communities, and enhanced staff morale.
